EXPERIENCE

The NorthCap University   June 2024 – August 2024
Lost and Found Website

Tech Stack: MERN Stack, Tailwind CSS, Bootstrap, Redux, Google Auth, OTP, Cloudinary
- Lost and Found Website built for students to report and recover lost items
- Built a platform for The NorthCap University using MERN Stack, that allows users to report and recover lost items
- Features include secure login, OTP verification of items, photo uploads, admin controls and time logs

PROJECTS

Disaster Management System: March 2025

Tech Stack: MERN Stack, OpenAI API,
- Developed a responsive web platform to facilitate real-time disaster response coordination
- Integrated Google Maps API for geolocation-based incident reporting and resource tracking
- Designed a real-time alert system to notify users about disasters and emergency resources

Bookstore Management System   October 2024

Tech Stack: MERN Stack, Redux, Google Auth, OTP, Cloudinary
- Developed a dynamic CRUD application using the MERN stack, enabling seamless creation, retrieval, updating, and deletion of records with a responsive UI and secure backend integration.
- Planned on Integrating AI model and training so it retrieved search books in the website just like Anna's Archive

C E R T I F I C A T I O N S
- MongoDB Certified by MongoDB University
- Oracle-Java,
- Pw Skills-Backend Development.
